ABOUT ME

A self-learnt software engineer who seeks to leverage my skills particularly into a workplace environment, and anticipates to challenge myself as a better programmer.

WORK EXPERIENCE

Software Engineer, BlueMeg
OCT 2020 - CURRENT

- Develop a console for users, including implementing new features and enhancing the existing functionalities
- Handle server-side responses and requests to workers which generate documents
- Guide newly joined developers

Frontend Developer, Sanuker Inc. Limited
JAN 2020 - SEP 2020

- Maintained the company's product "Stella", including adding new features and fixing existing bugs
- Integrated Shopify and Stella and develop different chatbot flows such as out-of-stock notification, order confirmation, etc.

Software Engineer, Altitude Labs
AUG 2019 - NOV 2019

- Developed an admin dashboard for e-commerce client
- Developed a client application that allows users to reserve restaurant's table for company events

---
